Thread: [Hiring a dev that could help me with a bot](#)

Roberto Scorpius Malfoy - August 31, 2023, 2:56 pm

Hiring a dev that can help me create a BOT for the app WickR, the only thing the bot is supposed to do is send a message to everyone in my contact list with the same text.

For example, I have 3000 friends on Wickr and I want the bot to send a message to everyone "Hello how are you doing" and then all 3000 friends on Wickr get that message.

I have checked and I could see that Wickr has an API so this should be doable.

Send me a pm if this sounds interesting to you.
