Slezer's Spreading Methods

2 Private, Efficient & Scalable Malware Spreading Methods

I am selling 2 spreading methods, one of them is autopilot and the other is manual. Both of them imply social engineering, so big + if you are good at manipulation and social engineering.

You can easily get hundreds of installs per day using the autopilot method. Since it is easily scalable, you can hire people to do part of the work for you & put many other methods in place to drive traffic to your "funnel". I can't say too much other than it has nothing to do with torrents, e-whoring, video uploading and forum spreading.

The autopilot method requires basic linux knowledge.

Price, Contact and Terms

Autopilot Method - 100\$

Manual Method - 50\$

I received a vouch copy of slezer's spreading method & I can say with confidence it will work.

The guide is very in-depth and walks you through every detail step-by-step. You are even provided with files to setup a website (which is very helpful).

The guide also comes with other really HQ content files for you to use (which slezer either made himself or had produced, which is going above and beyond for his customers).

You could easily get the ball rolling with less than a \$50 investment, but of course the more you invest the greater the returns.

In conclusion this method is very good & can be paired with other spreading methods to maximise your reach & potential.

[1] Deal :

As per my vouch contract created on September 3rd 2023, i received the product on September 4th 2023.

Deal was super smooth as silk. Seller is a nice person & good in this field of spreading.

=====

[2] Method prerequisite :

After purchase, buyer should receive guide from the seller. Guide is pretty self explanatory. Just follow it and you are good to go.

=====

[3] About the method :

After i received the product, i have extensively tested the product for 48 hours (i.e. 2 days).

Since, i cannot reveal the method, i can say that this method is pretty unique & has nothing to do anything with torrents, ewhore or any of those saturated methods. I can explain its efficiency by mentioning it's following parameters

Guide Language :- English

Ease of following :- Noob-friendly

Results period: User should start getting bots in 4-5hours after following this method.

Scalable: Absolutely Yes, user can get massive results if he/she hire some people to do some work on behalf of him/her.

Saturated: Nope, not yet. It's pretty much fresh at the moment & provides good results. But after using this method by many people for longer amount of time, it might get saturated. <-- @ this point only i am not agreeing with the seller.

=====

[4] Final Conclusion :

Q: Is this product for you or no?

A: At the moment, this method seems to do work as advertised.

And if you want to spread effectively, then this product is definitely for you.

Q: Will i recommend the product to others?

A: Yes, definitely. For its price, its one of the good guide released on HF. I hope, developer will keep updating the guide in future.

Q: Any tips to developer/seller?

A: Yes, definitely. I think, you should sell this method to limited amount of people. Even if you raise product price, its ok in my opinion. This will prevent it from getting saturated.

Hope that will helpful to someone who is interested in buying it.

Thanks & Cheers,

Comrade.

Thank you for this. I will definitely add limited slots for the method to avoid saturation.

You have not bought this product actually. I've replied to you on Telegram.

This is a scam!

He claims that he invented the method and that it is not oversaturated and can be applied in every niche, it is literally a 1:1 "copy and paste this here and then change this word to your xy".

Also the method is literally public since over 5 months, as there are multiple YouTube videos warning about it.

Do not buy this, don't see why any tester vouched for this... smh

Looks like you were the only person who paid for this and came back to leave a review. Did it worked well for you?

Also, question for seller: do I need to invest more money on setup if I buy the autopilot method? And how many bots should I expect? 50/day is enough for me, is this achievable?

Giaphuc1 - October 27, 2024, 10:15 pm

How can I contact you? Telegram

eliotjames - October 13, 2026, 12:22 pm

I would like a vouch please although I don't know much about such and am new to this platform, is there a way to see evidence of other customers buying it and stating and honest opinion?
