Thread: [OSRS Botting?](#)

Which OSRS bot do you guys recommend?

I have a maxed cmb acc, quest cape, 1900+ total, which I don't use anymore.
Might as well bot.

Oh, and any recommendation on what I should bot?

I personally recommend Sammich scripts. The guy knows what he's doing and is smart about it. It's a color tracking bot and it's fairly cheap. I think I paid something like \$30 as a one time cost and it's free updates and support.

Huh didn't hear about that one yet, checked it out and seems really awesome.

Thanks mate. I might actually buy this. It's \$40 for lifetime :)

I looked into botting again a year ago and back then the consensus was botting on mobile was the safest. Not sure if it's still the best way to go.

On mobile? Interesting.. Well I've decided to suicide bot anyway xD

Bought a good premium one from tr*bot. Let's see how she fares.

I've used it for 2+ years now with literally no bans. It has Mobile and runelite support. I use the mobile mainly.

For 2 years? Woah. What are you botting for though?

Any recommended moneymaking scripts for a high-lvl main?

Yeah, I've done a good mix. Right now, I'm power mining, but I've tested that, woodcutting, NMZ, prayer, construction. I've pretty much built a full account at this point from it.

SAMMICH seems similar to waspscripts.

Both great for skilling not really for money making

is botting still out there? played RS like 10 years ago and it always seemed its not worth anymore

Same. Botting was massive back then and JAGEX really put effort into finding botters.

Guess it's been a constant battle.

Ganom's Plugins @ ganomsoftware.com - runelite plugins, got my account basically maxed with 0 bans using his stuff

Welp, I've bought \$25 in scripts for 3 different accounts that I have (1 main, 2 skillers).

Pretty much made that \$25 back in 4 days.

Edit: My main runs for 8 hours a day and averages ~20 mill a day.

In 1 month, that's 600 mill. Let's say I sell for 0.19/m, I'll be making 114 dollars per month passively. That's considering I do not get banned. I've many anti-ban mechanisms in place, and don't let it run longer than 8 hours a day.

SweetieBelle - September 9, 2023, 5:13 pm

anyone have a private bot that does something super out of the way that is undetected for now? I mainly want a f2p bot until I can get cheap bonds or if they ever do free prime membership for osrs. if no one has a private bot does anyone know of any good scripts or something I can use on a different client?

and do people still use openosrs for custom scripts? or is there a better undetected client that you can run custom scripts on, I had to use open osrs to use the zulra plugin just for an achievement diary quest XD i cant kill that boss without a script for shit even with maxed out gear i had tbow and everything :P

any help or a point in the right direction would be awesome! i wanna setup a vps running a shitload of bots :P :) <3

I did pretty much exactly what you're doing a while back. I quit, had a main, decided to suicide it. It made me like 4-5b before it was finally given a rwt ban lol. I scaled one account into 15 accounts & was making like \$600 a month then a massive ban wave happned & i lost like 20 accounts so I quit. Started again recently & I'm back up to 14 accounts with the initial investment of a rev account. Botting is very much still profitable.

You know what you're doing! Haha. I'm thinking of scaling it now. Where do you buy accounts? Or do you train them yourself?

Mostly bot them up but having been buying some recently but I don't think I'm allowed to talked about it on here lol even though this is "hack" forums
