Thread: [safe DDNS + domain hosting?](#)

honeyspoons - September 7, 2023, 12:44 pm

please tell me any free and paid services you know for either

Ph4n70M Phr34K - September 8, 2023, 4:08 am

Free: dynu, dynv6, free dns afraid, duckdns, duiadns, now-dns, freeddns and many others that you could find after a simple google search.

Paid: Any bulletproof domain with a proper setup would work just fine.

What examples is good paid bulletproof domains?

I used to use Namecheap, is that still good enough? :)
