Custom Malware Setup Service

Are you looking to get a ready to use, complete and professional malware setup? Whether you want to start silent mining, stealing passwords and crypto wallets, spread a crypto stealer or anything else, I got you.

All you need to do is discuss with me what malware you need setup or what you wish to accomplish and I will suggest for you what malware(s) you need (if you haven't already purchased your software). I will then tell you my pricing and we can start working. It's as easy as that :)

If you are looking to learn how to create your own successful malware campaigns from scratch all while learning from me, I offer an All-In-One Mentoring Service :

What truly made me recommend them is that they still help after the contract is complete . They proactively reached out to offer additional guidance and assistance.

As I said I will be buying from them again. 10/10

Slezer is a super HQ member I've come to realize, always responds to my newbie questions when I ask in great depth so I fully understand and is always quick at responding. He also offered me to give him a voice call so he can explain any questions I have in more depth on the phone.

If you're interested in getting into this space and don't know where to start, Slezer is the man that can help!

(Mar 16, 2024 09:02 AM)Jamison12 Wrote: [\[CITE\]](#) Just bought the mentorship and all the guides were extremely detailed and helpful to the point where I (a complete beginner) was able to set up everything. Service was amazing and he was always there to answer any questions I had or to help me when I ran into some issues. One of the best purchases I've made.

what about specific help or mentoring?

do you have discord or anything so we can chat about some details?

Thanks
