Thread: [whats the easiest way to get tons of testimonial vids on tiktok.](#)

lets say u had an app or some website or product u wanted to go viral really fast on tiktok.

The best way , would be to get tons of people uploading about it on tiktok for u.

all they have to do is make like a 5-10 second testimonial clip showcasing the main feature of it, and why its so insane or whatever to get people hooked.

but how do u get tons of people to make a clip for u?

would hiring some VA to mass message people on tiktok, that they'll be paid \$10 (is that too high, or its fine) to make a 10 second clip showcasing ur thing ur tryna market.

They make the vid,

then i send them \$10 via paypal... (But then im worried theyd delete the vid after payment is sent lol...)

I wonder what the conversion ratio would be , with this...

But if the VA or Multiple VA send out 1,000 messages a day, i guess youd get a decent amount whod do it...? if u target small kids or teens, maybe \$10 would sound good for them....

is there any other ideas of how you guys would go about this?

You can use A.I. , it has a face swap feature and voice changer that you can use to make fake testimonials
