It is already shared on main thread. You need to have bytes to see the link

jpd69 - October 24, 2023, 3:51 am

Hi

I have a cast list of usernames and passwords for servers cameras cloudkeys, unify is online logins that I want to post so that whoever is interested can deploy ransomware and or malware I don't really care....

They have refused to pay me after I resigned and have really left me basically destitute. So I want someone to make good use of the credentials.

If interested I can probably paste here, not sure if I can as I am new here, seems there is severe limitations to my account?

Hmmm... Apparently I can't spell either, sorry I am posting from mobile so view isn't that great.

I would Like to get Access, I just do not have the bytes to be able to get it off the attachment. Is there an alternative link for this?

blueghoster - October 25, 2023, 10:56 am

I would like this info please, very new here and need a good foundation and path, thanks in advance.
