What you guys think about marvel movies?

Personally I love marvel movies Infinity saga was so epic, I have big expectations for Multiverse saga. I Hope we'll see more about Doctor Strange, Spiderman and Scarlett Witch.

Some of the series are really not for me like Moonknight and MsMarvel. Hawkeye was good.

Rip Tony and Natasha?

Marvel makes great movies, I really enjoyed the X-men movies the most. RIP Stan Lee.

Oh, I love almost all of the Marvel movies. But I found that the newest Black Panther movie was kind of lacking.. idk. It wasn't so much action but more of a build up to his sister becoming the new Black Panther

I have watched once and don't remember that much about the movie. Maybe I should refresh my memory and watch it again so I can give you a better opinion about the movie. Marvel makes best movies in the world.

I think Wolverine's next appearance is going to be in the next Deadpool movie actually, so it should be very soon!

I gave up on Marvel movies. I used to be so into them and now I have no clue wtf is going on anymore. I did see all of the avengers movies though.

A great collection of movies, mixed with good and flawed movies.
