Thread: [Selling Android Installs - Any GEO - Unique Method - NO AV/Install don't fall](#)

3GBP - September 28, 2023, 4:37 am

Android Installs currently available - \$5-15 per 1 install (5 minimum) - choose any geo desired or mix.

Price per install depends on country.

Installs wont drop due to your file getting wrapped and made to look as a legitimate program. No AV's, permanent auto-restart on file.

Plenty in stock along with constant fresh, if you have have a solution % based is also an option.
