Things are very cheap here, for example : Fox nuts which is around 100 bucks/kg in USA is worth \$6-8/kg here.

I have different products in mind which i can export from here so if you are serious in starting an impex business then hit me up.

Do you have any experience in the industry at all?

I am interested in this. Also, can you get kratom?

Extremely interested. Let's get in touch. There's someone else in this forum who runs an export service with his father and they're located in India.
