The staff has deleted urls. Does that mean the service is not reliable?

This might be a scam. I tested it and 4 hours after payment my account hasn't updated and I can't access anything

Yeah you should take a look at these threads:

<https://hackforums.net/showthread.php?tid=6227088>

<https://hackforums.net/showthread.php?tid=5873062>

The OP has deleted content because he posted things that violated the rules. That should have been a clue, as well as the old date.

I hope you didn't get scammed, and I hope that you choose to operate in a safer manner moving forward.

If you ever need some assistance, contact staff, hell even drop me a message, I can help you start a contract or ask for middleman services.

Hope everything works out.
