Thread: [Any Tool to check list of wordpress websites to validate user:password ?](#)

ajax000 - September 30, 2023, 2:42 am

Hello, I'm looking for tool to help me check list of wordpress websites and validate if password is correct or not, like below :

<https://website1.com/wp-admin/:user:pass>

<https://website2.com/wp-admin/:user:pass>

<https://website3.com/wp-admin/:user:pass>

do you know any tool for this ??

yes can be done with requests or selenium not exactly like :

<https://website1.com/wp-admin/:user:pass>

but yeh it's very possible and i think there are tools in the market that do so but if you want custom coded one pm me i can make it and we can use Middle Man

you can use something simple like this this guy does:

it's easy to put it into a script to automate it with a list of sites.
