VOUCHES:

(Oct 1, 2023 12:38 PM)uhtred Wrote: [\[CITE\]](#) Update 1:

Setting up the environment was incredibly simple and straightforward, which is not always the case, in this market. From the moment we started setting everything up, I noticed how well-organised this was the seller provided concise instructions. This ease of setup allows users of all levels of expertise to seamlessly set up the environment into their existing setup without any confusion or complicated procedures.

The goal seems achievable. I will update the vouch once I start spreading and receive the first bots.

Looks interesting, what stealer are you using?

Can you elaborate more on the "guaranteed profit" you offer.

GLWS!

It is privately coded by me. 'StormNet' - is the name I have given it. I may probably post a separate sale thread for this tool only.

But,

My goal is not to just make money by selling tools. I am looking to sell these tools + build a community of highly dedicated people, where collective income of the group will be \$1 million in next 6 month.

By Guaranteed profit, I mean : You will make money 100%, minimum 10 folds on your investment.

I am online and ready to take orders.

in what ways we make money?

is it thru mining?

No! Mining is for newbies but at the same time, it requires tons of technical skill to manage them.

There are quick and other private ways to generate income. The method comes with purchase and includes Live mentorship + Private Telegram group access.

by mining i mean silent miners where you execute the silent miner on the machines and it will do its thing.

so your method is even quicker than that?

I understand what is mining :). So, yeah silent miners are still for newbies and again, it still requires lot of bot management activities.

Yes, my method is even quicker than this.

Can you give a detailed introduction to the spreading method, such as

1. What knowledge do we need and how much time and money do we need to invest?
2. How many robots are obtained on the first day, first week, and first month after setup?

Sure, please find the answers of your question as below:

1. You will need to know how to fund account(minor amount: \$5-\$10) and manage incoming traffics.
[The method is well explained and support is provided to keep it smooth]

2. There is basically no limit of number of bots to have. But, we recommend to grow your botnet slowly for first 2-3 days. Then, we scale it very fast depending on your Earnings.

The earning from the setup is good enough to keep you engaged. The setup is only one-time and earnings are automated after that.

blueghoster - October 25, 2023, 10:47 pm

is this total noob friendly? as in I don't know any of the things you explained in the answers below, like Fund Account and manage incoming traffics. I learn quickly and am not toally computer illiterate.

BETA PRO (\$60) : You have access to private group on telegram (dedicated for RAT/ Botnet discussion only). In this plan, you have to pay separately for additional tools.

GAMA PRO (\$299) : You have access to private group on Telegram (dedicated for various discussion, mainly related to earning money). In this plan, everything is included. Readymade tools / methods are shared with members which help them make money. Yes, this plan guarantees income earning.

In GAMA Pro, you are also given private version of botnets + Advance spreading method. The goal here is to make you financially free.
