Thread: [Paperclip - Ultimate Data Breach Search Engine](#)

Klanzee - October 3, 2023, 2:41 pm

Paperclip is a powerful data breach search engine that allows users to quickly and securely search for breaches based on email addresses and phone numbers. Our robust search engine provides real-time results and ensures the privacy and security of user queries.

The demo link is now active: paperclip.pythonanywhere.com

The data is uploaded to a cloud storage system. The sources from which the data is obtained are shared with our customers, enabling them to access it manually. However, we plan to release a new update that includes an automatic data fetching feature from various sources and our own collection.

Thank you, appreciate it!

bullets - October 6, 2023, 3:01 am

Are you using elasticsearch?

Klanzee - October 6, 2023, 11:54 am

(Oct 6, 2023 03:01 AM)bullets Wrote: [\[CITE\]](#) Are you using elasticsearch?

No, We don't use any third party software to perform searches.

We offer it sa Software-as-a-Service (SaaS) that is currently available for purchase. Additionally, we provide regular updates to our clients, who then manage and operate the website themselves.

It just been updated to the v1.4

Klanzee - *May 11, 2024, 12:18 pm*

The project updated to v2.0
