Serving bangers & mash today, yeah- Drop a sample. I don't care if it's a meme, just give me some sound to fuck with.

I'll cook up tracks & let you know ? Maybe HackForums makes a #1 billboard hit? I think we have enough power as a community.

You should make one with the convo message sound. HackForum Convo Remix Part 1.

I believe someone linked it above. Going to sit on the inspiration for a bit then drop the track ? That death metal might help me shape a bassline though.
