Thread: [\[CursedGPT \] Uncensored Ai Code / Content Generation Blackhat Model CLI/WEB/API](#)

bambeero - October 5, 2023, 9:14 am

This AI code and content generation tool is designed to provide users with uncensored access to blackhat model capabilities. With CursedGPT, you can generate content in real-time using a CLI , web, or API integration.

CursedGPT provides an all-inclusive AI code and content generation solution that is designed to meet the needs of users who want to avoid censorship and have access to unfiltered blackhat model capabilities. This tool can be used for a wide range of applications, including content creation, data manipulation, and code creation.

With CursedGPT, you can generate high-quality content in multiple languages, including English, Spanish, French, German, Italian, Portuguese, Dutch, and Russian.

This is a better fine tuned version of wormgpt

I have messaged you please check dms.

NoiseDisplay - *October 16, 2023, 3:25 am*

This looks interesting

adamsandler - *November 10, 2023, 12:00 pm*

your telegram is not working

dank843899 - *November 10, 2023, 12:09 pm*

Is this based on a custom LLM?
