Drake PUTS A HIT On Andrew Tate

Do you think Andrew Tate will be gunned down soon or will Andrew Tate get Drake first?

Drake just commented "Green Light ?" on this video of Andrew Tate humiliating Drake and Canada. Green Light is a term used by gang members when a gang puts out a hit on someone.

Andrew Tate has called out Drake several times in the past saying Drake is not a real man. Andrew Tate wants all the smoke and is NOT afraid of Drake.

Spoiler ([Click to View](#))

I'm not choosing any sides, just want to see what happens in the future.

Who do you guys think will win? Andrew Tate or Drake?

[DashPHP](#) 100% agree with you.

He is a warrior, he knows who is behind Drake and Tate probably has higher people on his side that's why he can openly say those things.

I remember when an influencer called out Andrew Tate on twitter and within 2 days there were 2 cars with Tate's war room flag parked outside that influencer's house. He ended up apologising to Tate publicly and deleted all the shit talking tweets lol.

Andrew Tate is overhyped.

He is pitching everyone to sell his 'Get out of Matrix' platform but I saw some review videos saying the platform do not even allow some people to login after payment.

Yeah, he should go down. Lol

Never know what could happen, if shots can be fired in a nightclub while Chris Brown was performing live then anything can happen.

Here's Travis Scott getting checked by Tory Lanez lol. Travis is a 100x bigger artist than Tory Lanez.

However Drake does have strong MOB ties, so Tate vs Drake is a fair battle.

[DashPHP](#) as I said to [Dorrance](#) anyone can be checked man. A man ran into Fresh and Fit podcast recently while Andrew Tate was inside unarmed.

The last rapper to fuck with Drake was X who got murdered for talking shit online about Drake and Drake's mum.

I saw on the internet that Drake released 3 songs in a span of few months after X was murdered which allegedly contain lyrics referring to X's murder.

Drake - I'm Upset Lyrics

"SMS, triple X

That's the only time I ever shoot below the neck (Skrr)

Why you keep on shootin' if you know that nigga dead? (Skrr)

That's the only kind of shit that gets you some respect"

He also announced a tour named "Assassination Vacation" just 2 months after X's murder and the graphics of that tour look like X getting shot in his neck which is what happened in real life.

Drake & 21 Savage - On BS Lyrics

"If he held his tongue on that live, he'd be alive again, damn"

"I never put no prices on the beef until we end this shit

I pay a half a million for his soul, he my nemesis"

X Getting Crushed By A Rock in Drake & Travis Scott Sicko Mode Video

Travis Scott & Drake - Sicko Mode Lyrics

"My dawg would prolly do it for a Louis belt

That's just all he know, he don't know nothin' else"

"Lost my respect, you not a threat

When I shoot my shot, that shit wetty like I'm Sheck (bitch!)

See the shots that I took (ayy), wet like I'm Book (ayy)

Wet like I'm Lizzie, I be spinnin' Valley

Circle blocks 'til I'm dizzy (yeah, what?)

Like where is he? (Yeah, what?)

No one seen him (yeah, yeah)

I'm tryna clean 'em (yeah)"

Even X posted on his story that if he died it was Drake that did it.

X had no hitters or security. Drake vs Tate is more fair because both are well connected and this time he's not competing with some kid.

I'm not buddy buddy with anyone I beef with either, they can all get fucked or die trying. It's all been a bit to personal.

If Drake was doing it for show X would not be dead and Pusha T's career would not have been over.

Andrew Tate vs Drake is going to be crazy, both have put out hits on each other in real time.

Andrew Tate is more of a man than Drake tbh. Tate wants to checkmate the goat of rap. He wouldn't have dissed Drake openly like that without having strong asf connections. Drake wanted to meet Tate at first but Tate wasn't with it and said fuck off and continued the beef.

Yeah, drake has pretty much ran the rap scene for the last 15 years, in terms of hit songs, radio play etc. And pretty sure he got artist of the decade and a shit ton of awards.

Drake has officially broken The Beatles' Billboard Hot 100 record, which they held for 55 years. The Canadian rapper now has more songs on the top five hits in Hot 100 history than any other artist thanks to his recent collaboration with DJ Khaled and Lil Baby on the hit "Staying Alive

"Got more slaps than the Beatles" and yeah, Tate is more of a man than drake, will be interesting to see. Tate better not get caught slipping drake has a ton of people who would slide for him without question.

For real man, Drake has been dominating the rap and r&b scene for ages.

Drake just might have f*cked with the wrong person this time, Tate doesn't play games like these lil rappers. Drake has more to lose than Andrew Tate. Andrew started the beef, let's see who will finish it. Drake's address is all over the internet everyone knows where he lives.

I liked the drake and meek mill beef. Meek mill was dating Nicky Minaj and went on tour with her, and Drake said "If you love her then you gotta give the world to her, is that a world tour, or your girls tour, I know you gotta be a thug for her, this ain't what she mean when she told you to open up more"

Drake did not "kill" xxx

He used the situation for publicity & became the figurehead that "called the hit"

Y'all love the mystique that comes with the conspiracy (this one is an exception)

Drake wasn't the only one in on it. XXX was not under any thumbs of any major execs/labels or controlled/blackmail-able by the industry at large. He posted his own dick pic, etc. Man was untouchable and so big on his own there was only one way for them to combat the force and support he had behind him. So he got popped.

Drake did not kill XXX

The music industry as a whole did because he was a threat.

[mention=3297465] yeah XXX was definitely not controlled by labels, that's why he was forced to paint his nails and act feminine which most labels make the rappers do. The labels definitely did not milk X after his death, they all release so many unreleased songs after artists die to milk tf out of profits and the artists family doesn't even get a small percentage of how much the labels make. The labels milked the fuck out of X, Juice WRLD, Nipsey Hussle and Pop Smoke after their deaths. Infact labels pray that popular rappers get smoked so the labels can enjoy all the profits.

[mention=3297465] you claiming X was untouchable is the funniest thing i've ever read. Drake would chew X in a real man to man fight so what's there to say about a real world beef.

Here's mr untouchable getting smoked by Migos [mention=3297465] seen this before? ?

X had a lof of potential and was Drake's biggest competition, he was a better rapper and singer than Drake and was doing more numbers than Drake at a very young age. Too bad he got smoked for running his mouth too much, this is what happens when immature artists get a bit of money and fame.

X was not untouchable in the being alive sense - Jesus H Christ brother you really need to process the words on your screen. Please read. Untouchable (in this case) means not able to be blackmailed or controlled by the system + record companies + music execs. Context. Hopefully english is not

your first language so this oversight can be forgiven because this is embarrassing to have to point out.

He was becoming so big that it was a problem for their pockets

"he was immature"

Do you not remember being young?

How can you speak on his behavior when you've never seen \$100,000 in cash or drove a car nicer than a Porsche in your life. How can you possibly know?

You posting YOUTUBE videos thinking they are going to contain any real information while trying to drive this 0 point Point across is just insane.

The industry collaborated to get rid of XXX because he was a massive force with no puppet strings attached to him.

Drake used the situation as leverage for publicity and took care of the "face" of it on the outside while that industry took care of the backend part.

That's literally it.

You do not know what you are talking about when it comes to the music industry.

Please, a discussion is cool but a blatant lack of knowledge on the topic which you have attempted to curate is a whole other thing.

You're speaking to an ex record label owner which had over half a billion views.

Omerta means amongst the Mafia a code of silence about criminal activity and a refusal to give evidence to the police.
