should I accept it?

Deany - October 12, 2023, 2:51 pm

Hi there, I sent you a friend request.

[Komodo](#) was a nice guy and accepted it.

[mention=5037217] I don't wanna talk about it.

But the question is, what are you going to do with it? Choose wisely.

I always consult the general Hack Forums population before making a life changing decision, such as accepting a buddy request.

The only thing missing on this thread is a poll.

Why didn't you think about that?

I need users to justify their opinion on the matter. Forums are for discussing, not electing.

He paid someone to bot it for him.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
