How does the "Lifetime" work? Are you using cracked family accounts and add to them? Once it gets removed you add to another one?
or is it something else entirely?

Hello! With lifetime we mean you'll have a warranty til we close our shop, there's also no kick rate so they go for that long, and they're not cracked.

Vouch for him!

I bought two keys from him, the seller was friendly and invited the accounts quickly, at the moment everything is working correctly, we will see in the future but it looks good.

Sorry for the late response, was busy all day yesterday. Yes we upgrade your own account.

I can Vouch for flingy

I bought a key and was added to the family. Everything is working great, seller was friendly and understanding of any delays on my end. Will update if anything changes.

Do you need to have access to the account to upgrade it?

Hello, no! I don't need any access to your account, you'll just have to provide your mail address and your country so we can invite you!

Some news: As we've changed our upgrading method, from now on we'll need your account information to upgrade you. You can change it after, you don't need to worry. No information is saved.
