What types of degrees and course credits you offer?

Zombie [?] - October 27, 2023, 10:18 am

We offer degrees in almost every field, the degrees are fully online, accredited so you don't need to attend college, it will consist of non-proctored exams, so you don't need to sit in exams.

About college credits, we offer courses that can be used as credits in your ongoing degrees. The credits can also be used when opting for new degrees. For example Straighterline and Sofia.

Helpernumber1 - October 27, 2023, 10:36 am

Ordered one online degree and credits which can be used in the degree. Have worked with him in past and is legit guy, easy process, price is high but the degrees are authentic and have real worth. The process is top notch and safe. Great service!

I can't recommend Zombie highly enough! He and his team of experts took care of my entire bachelor's degree coursework, delivering outstanding results with A grades in every subject. The flexible monthly payment plans made the whole process stress-free and affordable. What impressed me most was the speed—they completed my degree faster than the traditional timeline without compromising on quality. If you're looking for a reliable and efficient way to achieve academic success, Zombie is your go-to person!

Just finished a class with the help of Zombie and he has been amazing. He was on top of communication and got me results back pretty quick. I didn't pass the 1st time (not his fault, the instructions were unclear) but he worked with me and the 2nd attempt passed with 0 issues.

This was both for a writing assignment and coding assignment. I didn't have to run their write-up through any AI humanizer. I was a bit hesitant since this is my first contract with him, and was afraid with all the new AI detector in writing it might get flagged, but the write-up was done professionally. Just had to follow some instructions by Zombie after getting the assignments.

Highly recommend this service if you are short on time, stuck with something, or if you're like me that already work in the industry and just needed to get the papers on your resume. Saved me a to of time, I'll be using this service for the rest of my program.
