Interesting method just that you need to sell your free stock to be able to get money or you can trade it for yourself and who knows you will make a bigger profit

You can do either. But most people just sell it and then transfer the money to their CC or Bank.

man, we should be more honest.

However, using your referral link does not mean you will earn €100.

you can earn from 1 to 100, let's be clear, they are not 100 easy and safe as you say.

Ok. Let's see how it works.

Good clear instructions. Fast and easy task. I only got \$ 13 as a reward (bad luck). You cannot send a reward immediately for an example bank account. One month hold. At least I have. (This may be due to a particularly strict law in my country). However, I recommend overall!
