Thread: [BA Sender Tool | 4 in 1 - Telegram Bot | SMS - EMAIL BULK SPAM](#)

**baranatess** - October 24, 2023, 2:54 pm

Hello friends

I present you my spam bot that you can spam sms and email.

I will specify the features in the photos.

SPOOF SENDER ID FEATURE (SMS) :

EMAIL TEST (SPOOF FEATURE)

[Video: <https://vimeo.com/877666557?share=copy>]

In this video I used info@amazonsupportteam.com as a fake sender address.

SMS TEST (SMTP2SMS)

<https://vimeo.com/877667107?share=copy>

Some sending evidence:

1 Month subscription - \$160

(I can send you a test sms or a test email before you buy).

They will be added to Version V2:

My English may be bad, please forgive me for that ?

I wanna that email spoofing app but I can't contact you on Telegram because it says I "can only send messages to mutual contacts at the moment". Do you use Discord? Just found a discord but can't message you from there either. Sent a connection request on Discord.
