What do you need a telegram group for?

You have an entire forum at your fingertips for what you need, and an on-site chat to quickly communicate.

This forum is really good for the community but it's a bit long for me to access this forum because it's laggy in this region.

what kind of hacking are you looking to get into?

Endorphins - October 26, 2023, 7:23 am

Would you mind sharing the reason why you want that kind of community in a Telegram?

We don't have any private Telegram group for hacking. Even if you join, they can easily steal your information with fake software. Be aware of it.
