Just added spin text feature.

SENDNR will rotate through multiple different sentences everytime it sends an email.

This feature will greatly decrease spam detection.

if the 2 weeks is guaranteed and if you can include that in contract then i will buy right away otherwise it will be waste of time as some smtps will die after sending huge amount of email in a day. let me know if you can include the 2 weeks guarantee. thank you

In my experience my SMTPs do last that long, but it all depends on how you're using it. For exampel, If you're getting a lot of bounce backs this will kill the SMTP quicker.

I usually only offer 48 hour warranty due to factors like this.

I can do you an extended warranty of 2 weeks for a small fee. It will include free replacement SMTPs if yours ever goes down or stops inboxing.

Hello all.

I've just pushed out an update.

The mailer now sends emails 5x faster than before!

You can also set how many seconds you want to wait before selecting a new SMTP.

Lextian - November 8, 2023, 6:25 am

posting to find this later, glws.

?Yahoo and Gmail yes 100%.
Hotmail yes but your letter has to be perfect, as hotmail.has better spam protection.

Please also ensure you are sending with a clean IP.

nathanjamesleo - January 15, 2024, 3:10 am

That's what he normally do.
if you raise a dispute he will promise you heaven and earth and beg you to resolve the dispute.
Immediately you do he will stop responding to you.
yours is 2 days.
mine was more than a week.
if you are serious on what you do, don't use him. he will disappoint you the day you want to spread.

He has not mixed you up with anyone. Here is the dispute in which you responded.

Stop trying to gaslight your own customers, they are entitled to their opinions. (you wronged them.)

SENDR - January 17, 2024, 11:37 pm

@THE RULER

Oh yes so he is. I couldn't see a contact when I went to his profile.
That dispute was resolved.

Usually disputes and problems are user error and they do not listen when I try to help

There are a lot of factors involved when email spamming, people do not understand that and expect a flagged IP/letter to inbox.
That's not how it works.

I will always help whe I can, I have made a lot of customers letter FUD again, switches licenses for free when they're IP gets flagged etc, I do the best I can but some people like being difficult I guess.

Take care.

SENDR - January 30, 2024, 9:53 am

Hey all.

I have been away for a week or so due to serious illness.
I am back now and think I've replied to everyone.
If you haven't recieved a reply, just give me a nudge and I'll get back to you ASAP.

I had a lot of SMTPs warming up while I was away, so we are ready to sell, inbox ready!
