Thread: [Unpacking Enigma Protector \[V5 - 7.0\]](#)

MiracleHF - October 28, 2023, 8:10 pm

Greetings,

I am currently seeking assistance from an individual who possesses the knowledge and expertise to assist me in the task of unpacking an .exe file protected with Enigma Protector x64 [version 5.0 - 7.0]. Your assistance in this matter would be greatly appreciated.

Thank you in advance for your consideration.

Tentco - October 28, 2023, 10:03 pm

PM me the file with details.

I can't send a pm, I don't have enough comments. Please send me your email address.

ppeti84 - December 18, 2023, 11:35 pm

A projekt nem titkos. Vettem egy csodás ninja dobozt. A csodás szerver leállt, tehát az eszköz nem használható. Szeretném módosítani a szoftvert úgy, hogy ne csatlakozzon a szerverhez. Offline

módon akarom használni.

Csomagolva van az Enigma 5. védokészülékkel. I can't post the software link here because I don't have enough comments.

The latest Miracle ninja1.48 version is available for download.

Hajlandó lennék fizetni annak a személynek, aki a repedést elvégzi.

The project is not secret. I bought a wonderful ninja box. The wonderful server has stopped, so the tool cannot be used. I would like to modify the software so that it does not connect to the server. I want to use it offline.

It is packaged with the Enigma 5 protection device. I can't post the software link here because I don't have enough comments.

The latest Miracle ninja1.48 version is available for download.

I would be willing to pay the person who does the cracking.

Humble request to the Master @Tentco,

I need a help regarding bypassing a Enigma Protected softwares!

I have some software which is required to launch the loader first (with registration details like name & key based on hwid); then successful registration process, I am able to startup the software!

May I get your help please? I would like to PM you, Master! Thanks in advance.

Hello, thank you very much for this interesting forum.

I was searching on the internet for unpackers and I found this site.

I have been looking for information about Unpack Enigma 5.X for a while, but I don't see anything clear. I am not an expert, I have some idea, but I am reluctant to unpack a x64 DLL with Enigma 5.X. Would someone be kind enough to tell me if there is a manual or knows how to do it?

Thank you very much in advance.

FR3690 - October 6, 2026, 12:48 am

can anyone tell how to unpack enigma 5.xx & 7.80 in 64 bit software?
