Thread: [Welcome me dear leets!](#)

Xenis - October 29, 2023, 7:35 am

Hello, Hack Forums Community!

I'm excited to join this forum, and I wanted to take a moment to introduce myself. You can call me Xenis. I'm passionate about technology and cybersecurity, and I wear two hats in the tech world – as a software developer and a penetration tester.

About Me:

I've been diving into the world of software development for a while now, and I've had the opportunity to work on a variety of projects ranging from web applications to mobile apps. I enjoy the creative process of building software and solving complex problems.

On the other side of the spectrum, I'm also deeply interested in cybersecurity. As a penetration tester.

Why I Joined the Forum:

I'm here to learn from the experiences and expertise of this community and share my own knowledge where I can. Forums like these provide a wealth of information and a platform for interesting discussions.

Areas of Interest:

Software development, especially in C++, JAVA, Python, Javascript

Penetration testing.

Staying up-to-date with the latest cybersecurity trends and developments.

I'm looking forward to engaging with all of you, learning from your experiences, and sharing my insights. If you have any questions, or if you'd like to discuss anything related to software development or penetration testing, please feel free to reach out. Let's connect and grow together!

Thanks for having me, and I'm eager to become an active member of this community.

Broheim - October 29, 2023, 7:37 am

Welcome to Hack Forums, 17shop.

Great introduction.

Enjoy your stay, look around and explore.
