any feedback is appreciated

I really like the designs, as they feel regal and powerful in their image. My only criticism is that the purple on the Jacks pop a little too much for me in comparison to the other face cards, but aside from that they look great!

they requested that jack to make it purple same as their website's old logo .
you're right tho, the color makes it different from the rest of the cards

thanks for the feedback sir ?

A very detailed work I must say. The final output was very detailed from scratch.

As [Koyote](#) said, the colors from the Jack are different but I'm not bothered much by it.

Keep it up and you'll surely be able to recover the money that you've lost. I told you you can recover it with the skillset that you have. ?

I envy you!

That is amazing. Good job, if you were to produce these I'd buy a set!
