Thread: [AI DROPLET - Auto Coding, Content, Reviews +100 | ADVANCE AI TOOL | \\$3/Mo | \\$10/Life](#)

**HostTeraByte** - October 30, 2023, 11:28 am

Here is a Live Demo on How the AI Module works at our Platform :-

(more demo coming soon - although you can test them all at our Platform)

(Make Real Professional Reviews which will blow your customers mind)

(Code anything just from your imagination - e.g. "make me a code that can send 100 email every 11 minute intervals" or "make me a telegram bot" etc)

[contract=tid]Start Contract[/contract]

**HostTeraByte** - November 1, 2023, 12:23 am

Payment through PayPal and Credit Cards will be processed by the end of November.

If you want to subscribe to a Plan manually using HF contract then please send me your username alongside the plan you wish to upgrade into!

OP was kind enough to give me a vouch copy.

I tried using most of the modules available on the site. Firstly I used the automated transcription. Gave a short video clip and a transcript was generated within a few seconds. The transcript was very accurately done.

Also tried using the content generation modules, specifically the "Explain like I am 5" the "Blog Article" and was very satisfied with the content and speed at which it was delivered.

Imfao, \$5 in btc\*

hell yes

depends on whatchu want, if it requires ssn i might not do it

Thankyou very much for your honest opinion! I hope you'll enjoy our services in future as a paid user with just \$10/lifetime

Dropping a reply to come back here later. Lemme know once you offer paypal payments.

**flyingduck** - November 16, 2023, 7:04 am

idk if its just me but your site doesn't work for me.  
says too many redirects and cookie problem

Fixed! Issue caused by cloudflare "I'm under attack mode"! Now it's fixed and you can easily moderate and browse though the platform!

Thanks for pointing out the issue!

PayPal payments will soon enabled if our new administrator wishes! I'm sure you'll be able to subscribe to a subscription soon enough!

Warmest regards.

Yea! Every module are available listed on the platform itself! Just look them up in the home page!

**HostTeraByte** - December 4, 2023, 8:27 pm

It's amazing that we are getting huge flood syn Layer 7 and Layer 4. Don't know who would wish ill on us but never to worry as we have thrown our project into FastFlux (although it was never required for an AI project).

It's amazing how the attacker has been sending big blocks on IPs after IPs just to get it changed every other 15 minutes.

**ch3micalburn3d** - December 6, 2023, 6:31 am

I have a question how is auto coding in ai droplet different from output generated in GPT4

**HostTeraByte** - December 6, 2023, 7:01 am

(Dec 6, 2023 07:31 AM)ch3micalburn3d Wrote: [\[CITE\]](#) I have a question how is auto coding in ai droplet different from output generated in GPT4

It's filtered. It's also connected to Git API to check out wrongs and randoms. Although this feature is only available to Premium upgrades with quotas as Unlimited checks/month on Premium Lifetime, 5000 Checks/month on Premium Annual and 10 checks/month on Premium Monthly!

**ch3micalburn3d** - December 6, 2023, 7:11 am

So basically output generated by AI Droplet is unfiltered is that correct ?? If so I would really like to test

**HostTeraByte** - December 6, 2023, 3:18 pm

Yes. You can close websites etc. If you have an non-upgraded account then refrain from using words such as phishing and stick to words like clone as you'll be marked as spam and we'll need to reverify you! If you would are interested into upgrading to Premium and like to test premium features then don't hesitate to DM me, no charges required for the test.
