Thread: [Acquired 30 iPads. Monetization ideas.](#)

Glock40 - October 30, 2023, 7:58 pm

Hello,

I have recently acquired 30 iPad's looking for some advice or recommendations on how I can monetize it.

Thinking content farms, etc.

Please put your ideas below.?

Thanks!

Use them all as bots for something. Depending on how new the iPads are and what OS they're running on you could do decently well with 30 of them all running at once.

I suggest you share one with 30 different HF members :D

Then we can all say thank you with them by posting pics of the screen saying "Thanks! - @username" lolol.

It is one perfect idea that I like the best. Even if you choose not to give all 30, at least give this guy 1 :)

What would you bot them for if you wound up going that route?

"I have recently acquired" - This made me laugh, doesn't sound slightly dodgy.

I see quick easy value if you warm up accounts and sell them aged, 50 cents to 1 dollar profit a profile easily.

There's just so many different possibilities so I'm really curious what OP had in mind.
