Thread: [Hit 6000 posts.](#)

Net - November 2, 2023, 2:48 am

Damn I hit a personal milestone of 6000 posts on this forum.

Honestly, I would never expect to last this long here. I do admit, I do come and go a lot of times, but most of the times I am "away" I am just simply lurking in the back and reading threads and at least trying to keep up with the latest drama.

Hopefully I will still be here till my 12,000 post. ?

Congrats brother! I've been around for quite a while now but I haven't always been active. I'm hoping to reach 2k posts very soon

Appreciate the replies, fellas.

Honestly, no idea. I think it took me maybe a few months or half a year? I don't really keep count, except for the milestones.

Thank you, decided to switch it up to something more colorful.

I never even noticed that I got the 4th star. What are the requirements to get it?

It's based on your total number of posts

250 posts for the 2nd star

500 posts for the 3rd star

5k posts for the 4th star

10k posts for the 5th star

20k posts for the 6th star

35/40k posts for the 7th star

How do the stars work for the groups then? I'm not completely aware how it works exactly. Thanks for letting me know how the regular stars work

I'm not an expert about groups and how they work but I think you can buy additional stuff like more stars and so on

There's quite a large gap between 500 posts and 5k posts, it'd be nice if it wouldn't be such a large gap. Was looking for this information though, thanks G

Yeah, the following would have more sense for me :

500 posts for the 2nd star

1k posts for the 3rd star

2.5k posts for the 4th star

5k posts for the 5th star

10k posts for the 6th star

20k posts for the 7th star

30k posts for the 8th star

50k posts for the 9th star

Or

250 posts for the 2nd star

500 posts for the 3rd star

1k posts for the 4th star

2.5k posts for the 5th star

5k posts for the 6th star

10k posts for the 7th star

20k posts for the 8th star

30k posts for the 9th star

50k posts for the 10th star

Yeah, this type of a format makes more sense than the current one
