Thread: [Rockstar Confirms GTA 6](#)

Should be getting a trailer in about a month.

This will most likely be the biggest selling game of all time. No doubt in my mind.

How often does Rockstar release their games after trailer in the past? Curious on when we'll actually see the game. Anyway, I'm hyped.

SnowFalling - November 8, 2023, 9:08 am

This is amazing, I've been waiting on this for a while. They will most likely release the GTA 6 trailer before Christmas, so parents can preorder them it, or have something to get them hyped up, as I see it.

Nostre - November 8, 2023, 9:09 am

My guess is September or October of 2024. I haven't touched games in so long... this might bring me out of retirement. ?

Zher0 - November 8, 2023, 9:17 am

I saw the news earlier this morning. There are rumors of a crypto reward system which is pretty cool.

I don't really get too excited for games anymore, but I definitely see this being the release of the year if not the decade given Rockstar's track record with this franchise. I like GTA 5, but I really didn't get too sucked into the story like I did with GTA 4. I'm more curious about what speculation will be confirmed more than anything. I've heard a ton of rumors floating around.

I can't recall the last time I played it, although I do remember the public VC being toxic as hell; it probably still is but much worse lol.

Space• - November 8, 2023, 9:45 am

Not necessarily hyped for it, as I do not game regularly anymore, however, I am very interested to see what the end result will look like after more than a decade of development.

I would imagine late 2024 early 2025.

Something I admire about Rockstar is that they kept with GTA 5 for so long. They didn't pump out a

game every year like EA or Activision does.

Yea exactly, GTA 5 is 10 years old and I know GTA 6 will still be a good year away but I can bet it will run every other game into the ground on sales.

Kind of sucks though cause they bought out FiveM, and that was how I really enjoyed GTA V. Man real roleplay is the best. Now Rockstar owns it and will probably turn it into a joke of itself or a cash grab. Also hows a major company like that going to manage GTA 6 Cities, like the actual management. Like what happens when people are just VDM'ing in a city or RDM'ing and no roleplay can take place?

Russian bear - November 8, 2023, 2:19 pm

I think its too early for the game to be release lol.

banonkiel - November 8, 2023, 2:50 pm

This been coming for a while now, some people guessed it would be the 25th anniversary. I reckon they were right but Rockstar just delayed it just out of spite lol.

Oh god, I hope not.

I don't think I have ever played a Singleplayer game from Rockstar that was bad, I hope this one is no exception to that rule.

I just hope they don't try to be "hip" and add some bullshit that will either waste a lot of time in development and eventually gets scratched OR is added and have people hating it hard.

Jake Johnson - November 8, 2023, 4:22 pm

I saw this news this morning when I got online to work. I had to take a double-take to make sure it was the actual Rockstar X account and not just a parody or rumor. I haven't played GTA V in quite a while. The last time I played it was using FiveM on some roleplay servers. I haven't played a bad game from Rockstar so I can't wait for GTA 6.

Can't believe it's actually happening finally. Super hyped at the moment. Hope they launch it soon before holidays season ends so that we can experience some great gaming experience peacefully.

Jokinha - November 9, 2023, 12:27 pm

Xdddkd - November 17, 2023, 10:29 pm

You're gonna be waiting years and years for this sadly. I can't wait either though!

Jack0a001 - December 12, 2023, 4:12 am

Wow I think it would be great, but I don't know the requirements to run the game ?

Fusions - December 13, 2023, 3:07 pm

The first trailer is awesome and I'm really looking forward to the game and another trailer, hopefully we get to see some cool gameplay. Not sure whether the crypto rewards will be true but if so, wicked.
