Thread: [JEFF BEZOS vs ELON MUSK](#)

LXXVI - November 10, 2023, 9:03 pm

who is the more powerful hacker?

both have rockets

both have insane datacenters

one controls imports the other controls natural resources

one controls the tor net the other bought x which is like the new hidden social media

i think jeff bezos wins in my book

Foxxxy Proxies Ltd - November 10, 2023, 9:07 pm

My money is on Musk. I think he's the smarter one, more outspoken on political issues, and I believe he wants more for everyday people, not just the elites. Bezos in my opinion is only out to enrich himself.

Crowned - November 10, 2023, 9:09 pm

They both have quite solid qualities, but I'd personally say Musk.

TyduS - November 10, 2023, 10:00 pm

Musk all the way,

I mean the fact he was blazing on JRE was top lulz.

Rionxee - November 10, 2023, 10:08 pm

This is actually a difficult determination to make.

Amazon collects so much personal identifying information whether through e-commerce or data mining via its devices, arguably data is becoming one of the largest levers of power and wealth. Data is more valuable than gold. Amazon furthermore via AWS has access to some of the most sophisticated and complex systems imaginable.

Blue Origin is not much of a Space X competitor. Jeff Bezos really with the massive amount of data collection and cloud operations has immense influence and power.

Elon though has more influence within the technological space realm as well as influence within cutting-edge levels of AI and human-technological interfacing. Elon due to all of his ventures has placed much more influence within the research and development sphere of science and technology. Elon is also a man of industry whereas Jeff Bezos really is an e-commerce/cloud computing icon.

Both are Ivy League educated, but if we are talking about technological knowledge Elon would definitely be the winner.

The winner of this gets beaten by Mark Zuckerberg, he has all our data.

Zuck is nothing more than a douche bag that steals all his technology. It started on day 1 with him. The same for Bill Gates. Both built companies based on stolen data.

Every company thrives on our data, let it be musk, gates, or Zuck. They are doing the same nasty job.

Dorrance - November 11, 2023, 12:48 pm

Bezo's has to be the better businessman.

They have two different agendas

LOUD - November 12, 2023, 9:34 pm

Zuck is my true father

DashPHP - November 12, 2023, 9:39 pm

I would have to vote for elon

Pkaywgy - November 12, 2023, 11:55 pm

Elon must would win easy???

ChrisDubai - November 13, 2023, 3:14 am

Musk I would say but both have different concepts of their ideas.. ?

AshleyUK - November 13, 2023, 5:23 am

Neither are "powerful hackers"

perm - November 13, 2023, 6:49 am

Those people are not considered hackers, so your question is flawed.

Deany - November 13, 2023, 6:52 am

Well, at least you tried to be creative. A for effort.

Tikva - November 13, 2023, 8:45 am

Something about Jeff always seemed odd or off to me. Elon though seems like a straight up dude that says it how it is and I love it.

Both very smart, talented, wealthy, good caring people. Not about "better" but Elon wins for me. Basically the same

BlackMale - November 13, 2023, 9:51 am

Has to be musk for me 100%

True, they are. But who do you think is more ethical?

If you are ethical, you can't be a tech giant. All of them are a-holes. Why your avatar reminds me of omni in someway? ?

dreadpixel - January 30, 2024, 7:11 am

I will vote for Bezos.

Elon is a megalomaniac who wants to own every industry, he wants to do everything and make people adore him.

Bezos is more focused on bringing good solutions with AWS, and Amazon has the best logistics and support in the world.

Elon uses the name of the best inventor that wanted to give free electricity to the world, but as a capitalist pig that wants money.

Elon and Bezos, both have used subsidies.

yeah but elon steals peoples money from stock markets and crypto markets, bezos earned it rightfully with tax rulings.

Monero-chan - February 1, 2024, 6:27 pm

Both are controlled by (((them))), but if I had to choose I would say Musk.

Jamika - February 2, 2024, 3:41 am

Elon for me, he use his resources and brain better

This is news to me. In what way does Bezos control the tor network?

Blora - February 6, 2024, 10:22 am

I'd have to go for Elon musk. Not because he'd be the best hacker, but because I have a lot of respect for him and his previous projects.

stardayzin - February 6, 2024, 3:17 pm

Musk easily, Bezos just has people that do most of his work for him.

danielbeyzym10 - February 6, 2024, 5:26 pm

I think jeff bezos is the best person in life and he is my idol!

No clue but fun to think abou

Pancake Boat - February 4, 2025, 3:50 pm

Well in terms of the space wars I have to vote for Elon.

Elon musk hands down. His rockets are more economical than Bezos
