I've had problems with many IPTVs. Can you provide a trial account?

How are you making profit with these pricings? You own a IPTV server or?

Curious how the prices are so low.

Only a few posts ago you were asking for trials of IPTV on here, now you're a seller?

Not sale trashing, I wish you the best but not sure how you've gone full circle from needing trials to giving out trials.

A few months ago, I did not have experience with IPTV, now that I do, I have decided to resell. That's not that weird is it?

Anyway, thanks for your concern. I wish you the best as well.
