This is a contracted VOUCH, Review.

Vert was super kind and helpful, I struggled to setup the server so that delivery of the members could occur. However this isn't a thing that's his fault and was completely my fault.

He was patient and communicative, he delivered 200 members and 2 boosts as a vouch. He 100% can do what he says and has a very ability to talk to people and educate them on their needs.

10/10 would recommend.

They aren't real members in the sense that they won't interact with your server. However they are online, doing activities, have avatars, bios, etc.
