We can send messages / friend requests to servers or private messages. With or without a link.

Be sure to include a sample message text. Also you can specify any link and picture.

After purchase, you need to write to the specified contacts to confirm the order.

1000 messages = \$15

\$0.015 per DM

Discord mass DM / Friend Request advertising is a marketing strategy that involves sending direct messages (DMs) to multiple users on Discord servers to promote your business, product, or service.

Benefits of Discord Mass DMs include: brand awareness, user engagement, real targeted audience, quick results.

The conversion rate is about 5%. Sending direct messaging campaigns can be significantly more profitable and derive higher results than purchasing advertisements.
