Was disappointed when Discord raised their prices but this is a great deal. I'll keep your thread saved for when my nitro expires.

If it's anything like the other services, you get a VCC.

We dont need access to any of your personal information, While we can get cheaper rates with access it's totally upto the customer (\$35 Nitro) Is already super cheap :)

Vouch for this service. I will be using in the future and recommending to those looking for boosts. Very reasonable prices, seller was nice and responded instantly. He then fulfilled 3 months level 3 on 3 different servers within less than 5-10 minutes. Highly recommend.
