This is so vague. You should provide more information, as in what your business is, and what kind of work you're needing a partner to do.

Or perhaps what you just need is a list of email instead of someone to work for you without any guarantee?

dream on brother, if your making 1k a month, You wouldn't beg for the service for free and pay later after sales? LOL.

bump up. i can do it manually but io need an extra hand . it is a bit greyhat. first sale goes to you for example iof we get a channel with 2k revenue we link your bank through mcn and you get the mon ey. we can open contract. so trust is built. then the salary is negotiable
