Thread: [PDF Exploit Dropper](#)

**Chopmoni12** - November 20, 2023, 7:45 am

Hey Guys, I have a PDF dropper that I built using Python and It helps carry your Payload and drops it on your victims Computer system. If your file is FUD, it will drop without been detected.

If you will like to see how this works, You can send me a PM and I will show you how it works.

**Rs6** - November 20, 2023, 8:37 am

Give us more details here.

(Nov 20, 2023 09:37 AM)Rs6 Wrote: [\[CITE\]](#) Give us more details here.

What the PDF dropper does is that it carries the Payload file and drops it on the Victim Computer because the PDF dropper is Completely FUD.

It doesn't execute upon delivery of the file. It just helps you to deliver it.

I am giving out few trials for reviews and after which I will be selling per build. The Builder will not be sold or shared.

(Nov 20, 2023 09:55 AM)m0hx Wrote: [\[CITE\]](#) and... how does the PDF work? most people use browsers to open pdf files. how do you say its pdf dropper like how it works lol?

It works only with PDF View applications. Within the PDF document, there is an embedded url link which downloads when the user clicks the OK button.

The essence of this PDF dropper is to enable you attach/send your Payload to your victim using a legitimate file extension which will bypass Gmail and Chrome Security if your payload is FUD. We all try to do our best and this is one of the little I can do.

**LeetSpeed** - November 20, 2023, 2:31 pm

I'm interested in this.

Reach out to me on Telegram <https://t.me/chopmoniGuy> with your Server host, or I can send you a sample using putty

**Root Joy** - November 21, 2023, 10:06 am

Check ur pm let talk?

**ruffanready** - November 21, 2023, 11:52 am

I already chatted you in tlgrm

**Chopmoni12** - November 23, 2023, 12:44 am

I have responded to all on telegram. I was working on JavaCrypter and I didn't have the time to look into my Telegram. But I have responded to all that did reach out to me there. I am so sorry for the delay in response

**fxweezy** - February 8, 2025, 7:00 am

im interested. please let me know how to contact u.

**Voidlight** - February 8, 2025, 8:03 am

I don't see how this is useful if it does not execute the payload. Say I delivered the payload using this method, wouldn't the user still need to execute it or download another program that executes it?

**Ammar Benchiheb** - February 8, 2025, 8:19 am  
nice work keep it up
