Thread: [1-on-1 Mentorship | RAT/Botnet | GreyHat | Proof Inside | \\$250/ Day XMR BCH BTC only](#)

Tails-OS - November 23, 2023, 12:54 pm

Hello everyone! I'm excited to present a unique opportunity for personalized guidance on monetizing bots. This isn't about selling you an e-book; it's a hands-on, live mentorship program where we'll connect through AnyDesk to ensure you receive direct and interactive instruction. My approach focuses on sustainable earning strategies using bots, and while the methods may be unconventional, I assure you this isn't a scheme promising instant wealth. It's a calculated, strategic process that requires dedication and learning. We operate within a grey area of techniques that we prefer to keep under wraps publicly, to maintain the effectiveness and exclusivity of the methods for those who join the program. Rest assured, we steer clear of any practices related to mining or similar activities, focusing instead on unique and lesser-known avenues for income generation.

This mentorship is designed for the determined individual who is eager to delve into the world of online Botnet through a more hands-on, tech-savvy approach. If you're ready to learn and apply new skills in this cutting-edge field, I'm here to guide you every step of the way.

Please be aware that this opportunity is limited to only three participants, and we will not be offering any vouch copies. It's important to keep this in mind.

may i ask why you are selling something that you make \$350/day from for \$750?

you say you are keeping it under wraps publicly and not offering vouch copies, which means it can be saturated.. why would you risk saturation for money you'd generate in 1 week

also your pictures are mostly from 2022, could you post the last 7 days worth of transactions?

Ph4n70M Phr34K - November 23, 2023, 1:47 pm

Mentorship is spelled with one "n"

The image merely illustrates the duration for which my system has been operational and remains effective, as evidenced by the inclusion of the one from June. This isn't about boasting; rather, it's to demonstrate its longevity. As I've mentioned, success requires effort. Also, please note, availability is restricted to just 3.

its not about bragging, more so just proof to validate claims

please pm wallets or post here with the last 7 days of payments

Will show more proof to any one interested, And stop sales trashing.

jasl223 - November 24, 2023, 10:45 pm

why not mining though?

isnt easy or profitable to do silent mining on the bots?

Tails-OS - November 24, 2023, 11:33 pm

(Nov 24, 2023 11:45 PM)jasl223 Wrote: [\[CITE\]](#) why not mining though?

isnt easy or profitable to do silent mining on the bots?

Nowadays, using bots for mining is inefficient in terms of resources and time. Achieving a significant return requires a vast number of bots (slaves) and a high hashrate.
