Oh very nice, let's see some new faces in this beautiful group! Blue!

?LEEP - November 29, 2023, 5:53 pm

Name: pupper_

Age: 30

Location: USA

Tell us about yourself: My name is pupper_. I've been a member of HF since 2013, but I took a long break and now I am returning. Since returning I've been very active, as well as providing HQ posts. I like being a member of communities to further connect and enhance my possibilities. I'm currently a 9-5'er but I'm working hard on trying to find a niche so that I can work for myself while providing more time to focus on my interests. I'm currently trying to learn more about crypto and other online investments. I like my coffee black and tea before bed. I like reading books especially anything with fantasy or sci-fi. I really like play MTG still even though I'm a grown man. I also still love video games from my childhood like OSRS and WoW.

What in life are you passionate about?: My family, my pet duck, and things that interest me. I've learned there's nothing better to do with your time than to spend it doing what you actually enjoy to do.

What are some of your hobbies (be honest)?: I like playing Paintball, and training. I also love going camping, swimming, and fishing. I love playing video games this time of the year. Where I live it gets a little too cold to be active outside. I like being active on HF and just generally being a part of the community. I've recently taken up Gundam models as a hobby and I absolutely love doing them. I've

also really taken to AI art, NFT's, and awards on HF. I'm trying to get into crypto but there seems to be a lot to learn that I'm more than willing to absorb.

What can you bring to the group?: I'm an active member on HF and I'd love more opportunities to be. I also love finding other people to play video games with that share the same interests.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): Definitely not. If anything I try to not even play into negativity at all.

IMMORTAL1TY - November 29, 2023, 6:26 pm

Name: Obliterate

Age: 27

Location: Gran Canary

Tell us about yourself: I am a vulnerability researcher, graphic designer, businessman, jokester, and music lover.

What in life are you passionate about?: Money. And to learn.

What are some of your hobbies (be honest?): Creating music, running a registered LLC, and drawing.

What can you bring to the group?: 7-10 years of accumulated knowledge in everything related to but not limited to: coding, graphic design, organic growth/marketing, help/support to other members by offering an ear for people to vent, cross-referencing data, SQL/DBMS integration, freelance marketing at a discounted rate from a well reputable company, Python, SecDevOps, and knowledge of Access Data FTK.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): I don't know anymore. Probably an asshole. :(

illuminati? - November 29, 2023, 6:27 pm

Good luck to everyone applying :D.

Neil - November 30, 2023, 7:32 am

Good luck to everyone who applies. Can't wait to see some fresh blood in the Olympians.

Dirty - November 30, 2023, 9:21 am

Name: Dirtybox

Age: 27

Location: Europe

Tell us about yourself: Distributed Data Platform engineer, who is working on his own start-up on the side, for physical activity which I take extremely serious you can usually find me in the gym lifting or climbing in one of the many bouldering gyms around me together with my wife.

What in life are you passionate about?: technology, music, traveling around the world and being adventurous.

What are some of your hobbies (be honest?): programmer, researching, lifting, climbing and music

What can you bring to the group?: my passion for technology, some humour and a drive to bring more enjoyment to the group

Would others consider you an asshole, rude, or a cunt (be fucking honest here): depending on the scenario, I can be very direct in my feedback. Never mean to hurt anyone but I also don't like to waste your and my time by trying to say something in a different way and take 2 hours longer.

Mx. - November 30, 2023, 5:48 pm

Name: Mx.

Age: 33

Location: Europe

Tell us about yourself: Hi there, i'm Mx., i used to do alot in the hacking section when i was younger.

I was always interested in how things worked and how things could be exploited, honestly that

never really changed.

These last few years i focussed on life and my family, also got into coding mostly in Python it really peaked my interest.

What in life are you passionate about?: my family, my incredibly cute doggy, friends, music, movies, series, podcasts now and then, and also love cooking honestly.

What are some of your hobbies (be honest)?: Honestly just being outside walking doggy and enjoying life, exploring different area's, meeting new people.

What can you bring to the group?: Honestly not sure, i read more than i write, not necessarily to leech but i'm the same in real life, i listen more than i talk, just my kind of doing things i guess.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): depends, i can be a real asshole if people lie to me, certainly when i find out, other than that in general i'm just to laid back to be rude i guess.

Name: Sexi

Age: 31

Location: New York, United States

Tell us about yourself: Long time lurker, python programmer and a person with a lust for learning. I have six dogs that I have rescued and a lovely wife of 5 years now. Living the dream and always looking for new adventures. I am an avid traveller and a birder.

What in life are you passionate about?: The financial sector and market forces. I am passionate about observing market movements and correlating them with geopolitical events.

What are some of your hobbies (be honest)?: Deer hunting, Playing video games and taking long walks along the beach with my morning coffee, pondering the world's wonders.

What can you bring to the group?: A mature attitude and extensive knowledge of where to find

things. I consider myself a "fixer." If something is needed, I have an uncanny ability to find and persuade people with further expertise than I have to accomplish any given task.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): Never in my life have I been considered rude; I apply myself diplomatically and calmly in every given situation, if there is a valid argument to be had I am the first in the room to help defuse the situation to come to a standard ground solution in which everyone wins?

A10247 - December 17, 2023, 10:12 am

Tell us about yourself: I'm a graphic designer and somewhat of an entrepreneur. I run a online business and have a job. Currently in college. I believe what ever doesn't kill you makes you stronger so I try to take any oportunity that's presented to me within the realm of reason. I'm a very simple person and I try to be as honest as humanly possible because I believe the truth is a very good thing for both myself and society. I'm always working, I get more enjoyment out of creating things than consuming them.

What in life are you passionate about?: Art. I love art very much. Regular Art, Music, and Movies are some of my favorite types of art. I believe art is important and reflects reality in a way that could be considered its own language.

What are some of your hobbies (be honest?): Drawing, Painting, Playing Guitar, Slight Programming (CSS, HTML5, Javascript), Cinematography, Working Out, Video Games, Chess.

What can you bring to the group?: I'm obviously artistically inclined and well read. If ever anyone would need help with some aspect of web design or design in general I could be of great assistance with a considerably well written sentiment to boot.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): Nope.

Snowwy - December 19, 2023, 5:39 am

Name: Snowwy

Age: 30

Location: Australia.

Tell us about yourself: Well, I have been a member of HackForums since 2013 and ever since then, I have always had a strong interest in computers, hacking, technology, and video games. As I am now getting older, I still enjoy learning new things relating to gaming, technology, hacking etc, but I am also finding new hobbies such as cooking and trying different types of food, as well as going on more mountain bike trail rides - and of course, whenever I get some free time, I still really enjoy playing video games. Call Of Duty is my go-to game at the moment, but I am very excited for the new Grand Theft Auto to be released.

What in life are you passionate about?: I am passionate about my job. I always put in my hardest efforts when working, by always being reliable and loyal, by always showing up on time, and by successfully completing all my tasks promptly and accurately on a daily basis. I am also very passionate in finding new ways of making money, whether that be online or real life, as well as learning about new things.

What are some of your hobbies (be honest?): Some of my hobbies include playing video games, spending countless hours watching shows/movies/YouTube/anime, mountain bike riding, watching NHL, betting on all different sports, and I also enjoy eating in general - who doesn't, right?!

What can you bring to the group?: Well, I am a friendly member who is always willing to help, always willing to learn and always willing to teach others. I enjoy meeting new people and making new friends. With that being said - I have some knowledge in all sorts of different areas that may interest other members within the group. I have been a member of the site for over 10 years now, and I will be highly active within the Olympians group. I am always respectful of leaders and other members.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): No, I highly doubt it!

InspectorGadget - December 19, 2023, 5:52 am

Name: InspectorGadget (or Android)

Age: Late 20's, the big 3 0 is fast approaching.

Location: UK

Tell us about yourself: An avid learner with sadly not as much free time as I'd like anymore. In my downtime I love to play games like Counter Strike 2 with my coworkers. I have a strong background in cyber security, particularly around governance and some newbie pen testing skills.

What in life are you passionate about?: Technology, Music and Gaming

What are some of your hobbies (be honest)?: Gaming - VR is especially taking over my life. I used to be Security mad but have gotten to the stage in my career where the job takes up most of that time, and in my free time I like to think of anything but security... but it creeps in.. If I end up with a few days off, I do enjoy booting up my HackTheBox VM and trying some of their challenges. I also run <https://plutonium.pw> with a couple of other friends, luckily it is mostly hands off these days. When I can, I love to go do some nighttime photography too, you can see some photos here: <https://hackforums.net/showthread.php?tid=6241320>

What can you bring to the group?: Mainly just my knowledge and interests to be fair, unless you're interested in GDPR, then I could talk your ear off. I'm always looking for a side hussle though, so happy to collaborate with members when I'm available. Oh, I also have a fully automated Plex server that I don't mind sharing access to for friends.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): I wouldn't consider myself an asshole or a cunt, but you could consider some of my responses rude, I'll be the first to admit that I refuse to pander to people who expect effort but do not give any in return. Such as people spreading misinformation or expecting something for nothing. "Pls hack this website they are bad" threads make my blood boil. ?

P.S Just saw the hardstyle video in the OP, does this video I uploaded help with my application?

Tell us about yourself: In my active days on this forum 2014-2015 I was primarily focused on hacking, even leading a group formed from various HF members outside of this forum. Until I was hit with a reality check and decided to remove myself from the internet, cut ties with any illegal activity and found safety in a Pentecostal church. I am now happily married with two children who are the center of my world now.

What in life are you passionate about?: Biking, I love BMX and MTB riding. I know most BMX riders by their riding style, and love to get out and ride. I love playing video games as well, my favorite being CS2.

What are some of your hobbies (be honest)?: Web development (very rusty, it's been years but I am getting back into it) Bicycles, cooking (I can cook a fire brisket).

What can you bring to the group?: I will bring my positive attitude, activity within the group and am always looking for new subjects to learn and activities to take place in.

Would others consider you an asshole, rude, or a cunt (be fucking honest here): In my past, some people might have saw me as rude. Nowadays I am just chill, and stay away from drama. Having children, and a wife is crazy enough for me and drama is the last thing I want. So I stay chill, and positive. If I don't have anything nice to say, I usually won't say anything.
