I recommend the banana fish manga

Get Bleach. It's the best.

There is also Hunter X Hunter.

You should check out Ajin and Usogui, both are very underrated.

Solo Leveling is actually the best manga I've read in a long long time. I definitely recommend it

What genre do you prefer?

Most of the stuff already mentioned are pretty good, I'd add in these (added bit of info)

Kill me, baby. (4 koma, comedy, slice of life)
Kinda funny in a stupid way lol.

Greatest Estate Developer (Isekai, Manhwa)

Really good, one of best manhwa IMO, better than solo leveling. Doesn't take itself seriously, humor is kinda akin to Gintama. About a civil engineering student trying to live a comfortable life.

Omniscient Reader (Isekai, Manhwa)

Not bad, if you enjoyed solo leveling, this is on the same level. A guy thrown into a novel, tries to use what he knows as much as possible before the story completely deviates from the novels setting.

Yakuza Reincarnation. (Isekai, gritty)

A yakuza that got a new start, I don't remember most of it. But it wasn't bad IIRC.

Saga of Tanya (Isekai, military)

Cool x10. Isekai office worker dropped into a battlefield, min-maxes war.

Claymore

One of the best, right up there with Vegabond and Berserk. Read it long ago, don't recall much of it. But it was good.

The Divine Surgeon (Isekai, Medical)

Medicine Isekai is kinda interesting. Doctor gets reborn in three kingdoms times, decides to spread medical knowledge.

Return of Mount Hua (Chinese, Martial arts)

One of the better Chinese manhwas. A sect's student gets thrown forward in time where his sect has crumbled. Decides to rebuild it. Story isn't interesting, but has better character development than several other Chinese manhwas.

Overgeared (VR, MMO)

If you enjoyed Solo leveling, you'll probably enjoy this one too. A guy drowning in debt trying to

pay back his debts. Finds OP class and rides easy till end of story, plenty of Korean manhwas with this setting, but this is one of the better ones.

One step for the dark lord (Korean, Fantasy, Mystery)

Humans trying to survive in a world with two unkillable demon kings + sprinkle of time foolery.

Lord of Mysteries (Mystery, Martial Arts, Manhwa, cancelled)

Isekai, but revolves around the occults. Builds up on occult fantasy, and seems to avoid the "power lever" thing most manga/manhwa does. IMO, it was an interesting setting with decent story, but too bad it got canceled.

Eminence in Shadow (Isekai)

My favorite Isekai manga. Doesn't take itself seriously, and makes fun of the genre itself. Has decent characters, and "combat".

Isekai de Haishin Katsudou (Isekai, comedy)

Shit story, shit characters, funny setting. Streamer gets isekaid and decides to introduce streaming to his new world.

I became the Tryant of a Defense game. (Isekai, game, Manhwa)

One of the better Korean Manhuas. Better than Solo leveling IMO. Guy isekaid to game world set to impossible difficulty.

Got bored so here's the rest :dd

Duke Penisdragon

Doctor's Rebirth

Ake no Tobari.

Can't forget: Bobobo-bo Bo-bobo

10/10 manga, doesn't get better than this. If you think you've read anything better, you're WRONG.

One of the first manga I purchased in life were 'Demon Diaries' and 'Samurai Deeper Kyo.' Loved them both. Unfortunately, Demon Diaries was never completed as the artist and writer went their separate ways. Samurai Deeper Kyo you can watch in anime form as well. Highly recommend it.

Death Note is really well done and is perfect for manga. Someone also already said AOT but that's also a good one even if you've seen the anime.
