Doge is quiet but literally exploded to the moon all over the news a few years back when stock market apps added it.

Doge has to be the sneakiest snake of the top alts!

pay attention to his moves over at paypal, big crypto moves on the up and up.

whales are holding dogecoin and they will bring it up properly!

I invested like 3,000 in Doge and it went to like 1,600.

Literally ate all my money wtf. It barely moved since that massive pump dump rally.

Honestly I will hope like a dream, I hope twitter flips over in 2024 and drives crypto up.

Not hoping much from the lousy bottom feeding start ups alone :__)
