If so how do I hatch it and what does it give me? Or is it just for looks? Sorry I can't figure it out lol

You used to be able to auction them off in the lottery for some bytes, but not anymore. Hatching won't earn you bytes either.

Welp that stinks. I guess it's just eye candy now. Seems like bytes are prized possessions on here, I need to start figuring out how to stack them. By chance is there a method to buying bytes directly from HF and if so where would I do that lol?

It will be gone on your account after a week but you can have it on the incubator to hatch it and play the HUM game.
