Thread: [Ebook become a book publisher, sell direct to customer \\$0 investment](#)

Brasil - December 12, 2023, 3:23 pm

Learn how to be a book publisher. Source books, create them, learn what services to use, and so on. Gain coaching services if you join our HF group (discounted entry for eBook buyers for a limited time). Gain exclusive access to our platform for collaborating with other book freelancers.

Gigantic market, put books back in print and benefit from the money, or author your own books. All software choices and guides are included with the eBook. This book is fantastic for people from beginners to advanced levels of the book publishing hustle.

\$25 for the first few buyers, until this promotion is over (when I say so)

Hi, this sounds interesting. Would you be willing to give out a vouch copy?

Already have a community of people built around this, don't need to give out vouch copies. This is meant to be a service to HF to bring it to this absolutely fantastic website.
