Thread: [Youtube NFL Season Pass /w Redzone Add-on](#)

Exgroyper - December 13, 2023, 9:49 pm

I don't want Youtube TV, unless it has to be included, otherwise just the NFL season pass with NFL redzone on youtube. I know I can watch it on other sites but I want it on Youtube. I think right now it is around \$114 for the rest of the season, so I am not sure if it's possible to get it for me cheaper like how people do upgrades for other services i.e. spotify.

If somehow possible I'd prefer it to be on my YT account but if it has to be on a burner account that is fine, I just want control over the associated email and obviously not shared with anyone else. I am not an expert so if this can't be done without doing committing fraud then nevermind and I will delete this.

Not expecting it to be super cheap, will pay a premium if it can be done on my account, BTC only, must use contract, I only communicate on HF DMs no matter what. DM me your offer
