Thread: [Has 2023 been better than 2022 for you?](#)

Excellentum - December 15, 2023, 4:01 am

Unfortunately I can't say that 2023 has been better than 2022 for me so far. I have been through a few unpleasant things, but I remain positive and continue to believe that the best is yet to come! I hope most of you will give a positive answer! Even if you don't - stay blessed! Be positive believe ! I wish 2024 to be the best year yet for all of you!

Not at all. Either year wasn't great but financially I feel like it's been worse and worse. Hopefully things change when we get this president out of the white house.

Sadly it's getting worse worldwide, but I genuinely believe that 2024 will be a better year for all of us! Keep your head up and don't lose hope! Wish you all the best, buddy!
