Thread: [What car do you drive?](#)

Hi. I found this a kind of interesting what car brands are you all driving irl. Not the car that you dream of. My first car was a Volkswagen Polo 1999 and it was pretty funny to ride such a small car. It had just a 1.0 liter engine and it was really annoying cuz it's slow as hell. Now I'm driving a VW Jetta 2019 and I'm happy with it. The next car will be the brand new Audi A4 I guess.

What was your first car? What did you like about it? What do you drive now? Let's discuss!
