This contact is from a member with multiple accounts which are all closed. He sent me a contact requesting I open their account. My response was "Stop joining. Simple". They're a troll basically but this is what Mental Illness looks like in email form...

Quote: Yes, I did join your forum before. But I couldn't get it to work right. But as you noticed, I finally did manage to join and make it work. That aside, what is it you object to about my joining your forum. That I'm not an actual "hacker?" I'm not a member of the Mafia either. Does that make a difference too?

Know this. I am your intellectual SUPERIOR. Whatever cult you may follow, I can smash it. I joined your forum to find some suggestions as how to beat forum anti-spam software. Because forums keep banning me. Why? Because humans such as yourself who run and populate such forums are ignorant morons. I can't be defeated in debate. So they choose to ban me instead. Though I'm not perfect. I am only right about 98% of the time.

Here is something else for you to consider. FREEDOM OF SPEECH is the most important human right of all. Especially in my case when that freedom of speech means speaking the TRUTH!!! Anybody who would deny freedom of speech is subhuman at best. Those who deny the right to speak the truth are even lower than that.

It's too bad your forum doesn't cover any topics besides those having to do with hacking. Because if it were otherwise, you could tell me exactly what it is that you find objectionable about anything I might say. Such a debate wouldn't end well for you. I would basically have you running off and crying to your mommy. So lift my ban, if you dare. Not that there is anything that I can say at a hacker forum that would make any difference anyway.

Just crazy to me how some people think. Massive strange rant. What's your take on it?

Every now and then I come across a post about some who claims they have been hacked and people are spying on them through their air fryers and people are sending them messages through pulses in their electricity.

This guy is right there with them. He's detached from reality and acting completely outside of the realm of normal.

Honestly, these days, I don't even have the time to type all of that up, let alone just to troll or ramble on like that.

Sounds like someone with too much time on their hands and no productive outlet.

Omniscient - December 15, 2023, 5:17 pm

Well it's funny they want to circumvent forum spam prevention methods and they continue to get banned on forums but they think it's because they are smarter than everyone else.

I dunno. Seems like your average SRPP poster. ?

My man lives to lose debates he thinks he's winning. Delusional.

Reminds me of when I was staff and there was this kid who kept coming back and scamming people.Ughh.. What was his name.. Can't remember its been 10+ years.. Multiple accounts etc.. Like so many accounts to a point where you were considering releasing his dox but ultimately decided not to.

I think its just part of having an online community, there will always be crazies, seeking attention. Thats why internet communities are so attractive to people who are dysfunctional IRL. I think the worst thing to do in such cases is giving them attention, like creating this thread would likely escalate the behavior because it fazed you.

This hits every box for Psychosis in my book.

Whenever someone is talking in this in-cohesive manner and it just strikes you like they actually believe what they're saying, it's always Psychosis.

The appropriate term to describe this individual is "delusional."

Navos - December 16, 2023, 8:22 pm

This guy totally reminds me of [Lorem Ipsum](#)

Same manner of speaking, deranged and delusional.
