Thread: [add licensing + subscription to lua scripts](#)

Costanza - December 15, 2023, 11:27 pm

I don't know much about this stuff however had a few scripts made for WoW and I'm looking to start selling them for a monthly fee , I'm looking for somebody who could help me set this up . The unlocker is shared between all botters which has its own licensing

The scripts load into the unlocker with a file

Even willing to pay for ideas what I could do

Do you have the "unlocker" or are you looking for someone to make the unlocker. Also given that it is lua scripts, it is near impossible to prevent people from leaking it. You can obfuscate it, but it will bring some pros and cons to the table.

Have an unlocker that another company runs , many sites just run it through a cloud so potentially looking for that
