Thread: [FREECASH MENTOR \[\\$200-\\$400\]/MONTH UPDATED FOR DEC 2023](#)

I-I - December 17, 2023, 9:12 pm

[using referral link gives you a bonus crate to open at signup and takes nothing from you]

If you use my ref link I will mentor you on the best offers and how to complete them through DMs or Discord.

referral link: <https://freecash.com/r/110066650333676187746>

ref code: 110066650333676187746

Non-ref: <https://freecash.com>

Note: I only have information for PC and Android. I don't have advice for iOS users because I have no experience with it. [-]_/

So what are we doing?

Spoiler ([Click to View](#)) Anything to get points. Usually the games are the best way to go. My friends have had good luck with surveys but I tend to stay away from those. Purchases or trials are good as well if you actually like the product but I mostly just do games.

Bonuses

Spoiler ([Click to View](#))

1. Make sure to make \$1.00 each day to keep your reward streak going.
2. Sometimes "freecash exclusives" games will pay you the same or more of the amount of money you spend in game. If you see these offers do it.
3. Right now there's a 500k Christmas Slot bonus going on for every \$1 earned. This ends on Jan 9th so get going on it now.

PlayTime

Spoiler ([Click to View](#)) Playtime is under "offer partners" you should check these out because they pay for you to progress in a game or app over a time limit. Right now I'm using "AutoClicker" app to scroll through Tiktok while I sleep and getting paid \$0.7/minute. Lots of other options as well. Coin Master is really easy too. Use these with MoneyWall watching to reach your \$1 streak goal under rewards each day.

MoneyWall Videos

Spoiler ([Click to View](#))

These aren't active right now but when they are it's great. You can just leave the videos up on your PC or phone and get paid. There's a difference between PC and Mobile though. I could stop getting paid on my PC or paid very little, but do the same thing on my phone and get paid more. So if this comes back alternate between device types. If it's available it'll have a "watch to earn" option.

PC Offers

Spoiler [\(Click to View\)](#)

1. World of Warships (ez \$8+)
2. Honkai Starrail (ez \$10+)
3. Genshin Impact (ez \$10+)

Phone Offers

Spoiler [\(Click to View\)](#)

1. Call of Dragons - FreeCash - Super easy
2. Startrek - Turbine - Easy to earn \$11 in 30mins
3. Drill and Collect Idle - FreeCash - Ez to earn all but level 15 which takes time
3. FirstLeaf - Cost \$44 for \$21, but you get 6 bottles of wine + bonus spins and suchs from Freecash.
4. Familyisland - FreeCash - really easy game + bonus buys
5. Raid Shadow Legends - FreeCash - Purchase rewards + bonus buys + ez completion. Easy \$200+

Tips:

Spoiler [\(Click to View\)](#)

1. Always check your rewards and keep your streaks going.
2. Surveys are shit, they're only good to keep your streak going. I wouldn't bother with them
3. Read the chatroom on Freecash for ideas, people talk a lot of there.
4. The best apps are the ones that pay you \$0.01 for install, that way you know you're getting awarded
5. If something doesn't pay you don't worry. Sometimes it takes time, sometimes you get scammed. That's why rule #4 is nice.
6. Always check bonus buys on Freecash offers, they sometimes are worth it.
7. Cash out to Stake.com for an extra 15%
8. Don't cash out to Stake.us for the bonus %. You have to gamble what you cashout to withdraw.

This looks interesting, how much do you make a month with this?

it varies depending on the offers available to you, once you do all the good ones money slows down until new ones show.

I've almost made \$1000 this month

Are the wages similar in Balkan countries? Is it worth it? Thanks for this informative thread, it's not outdated like some others. +REP to the OP for sharing.

I used your link, though I'm not convinced this is going to be much of anything. I'm sure you made a lot of your money from referrals.

Lots of EU get good offers but I can't vouch for it, I just see them talking in chat.

Not "a lot" no, my profile is public so you should be able to see on your own. As you can see I've made less than \$100 from refs. You can also see my level, which is \$1 per level, you can subtract that from the earnings but earnings also includes rewards, events, refs, ect... hmu if you want tips, just tell me what offers you can see and I'll tell you which are worth and how to do them quickly.
